Contents Volume 75 (1992)

Vol. 75, Nos. 1+2 (December 16, 1992)

Facilitated diffusion in immobilized liquid membranes: Experimental verification of the "jumping" mechanism and percolation threshold in membrane transport
A.A. Kalachev, L.M. Kardivarenko, N.A. Platé and V.V. Bagreev (Moscow, Russia) 1

Barriers to flow in semicrystalline ionomers. A procedure for preparing melt-processed perfluorosulfonate ionomer films and membranes
R.B. Moore, K.M. Cable and T.L. Croley (Hattiesburg, MS, USA) 7

Gas transport in polyurethane–polystyrene, interpenetrating polymer network membranes. II. Effect of crosslinked state and annealing
D.S. Lee, W.K. Kang (Kyungki, S. Korea), J.H. An (Kyungbuk, S. Korea) and S.C. Kim (Seoul, S. Korea) 15

General treatment of liquid-phase boundary layer resistance in the pervaporation of dilute aqueous organics through tubular membranes
B. Raghunath and S.-T. Hwang (Cincinnati, OH, USA) 29

Plasticization effects on the gas permeability and permselectivity of polymer membranes
J.H. Petropoulos (Athens, Greece) 47

Specific membrane transport of copper(II) ion by a cooperative carrier composed of 1,7-diaza-15-crown-5 and palmitic acid
S. Dadfarnia and M. Shamsipur (Shiraz, Iran) 61

Critical displacement pressure of a supported liquid membrane
F.F. Zha, A.G. Fane, C.J.D. Fell and R.W. Schofield (Kensington, N.S.W., Australia) 69

Modification of Daramic, microporous separator, for redox flow battery applications
S.C. Chieng, M. Kazacos and M. Skyllas-Kazacos (Kensington, N.S.W., Australia) 81

Pervaporation of ethanol/water mixtures using novel hydrophobic membranes containing polydimethylsiloxane
S. Takegami, H. Yamada and S. Tsujii (Tokyo, Japan) 93

Electrokinetic transport of amino acids through a cation exchange membrane
K. Lee and J. Hong (Irvine, CA, USA) 107

Generalized microscopic mechanism of facilitated transport in fixed site carrier membranes
R.D. Noble (Boulder, CO, USA) 121

Pharmaceutical product recovery using a hollow fiber contained liquid membrane: A case study
R. Basu and K.K. Sirkar (Hoboken, NJ, USA) 131

A new class of oxygen selective chemically driven nonporous ceramic membranes. Part I. A-site doped perovskites
T.M. Gür, A. Belzner and R.A. Huggins (Stanford, CA, USA) 151

Surface characterization of ethylene–vinyl alcohol copolymer membranes prepared under various conditions
K. Nakamae, T. Miyata and T. Matsumoto (Kobe, Japan) 163

Plasma deposition of vinyl acetate onto Nylon-4 membrane for pervaporation and evapomeation separation of aqueous alcohol mixtures
K.-R. Lee, R.-Y. Chen and J.-Y. Lai (Chung Li, Taiwan) 171

Development of asymmetric hollow fibers from polyimides for air separation
T.-S. Chung, E. Ronald Kafchinski and P. Foley (Summit, NJ, USA) 181

An investigation on the configuration of inserts in tubular ultrafiltration module to control concentration polarization
V. Mavrov, N.D. Nikolov, M.A. Islam and J.D. Nikolova (Bourgas, Bulgaria) 197

Meetings Calendar 203

Meetings Calendar 203

Vol. 75, No. 3 (December 23, 1992)

Turbulence promoter geometry: its influence on salt rejection and pressure losses of a composite-membrane spiral wound module
S.V. Polyakov and F.N. Karelin (Moscow, Russia) 205

The detection of asymmetry in homogeneous membranes: Demonstration on a carbon molecular sieve membrane
H. Tobias, A. Amar, S. Saguee and A. Soffer (Beer Sheva, Israel) 213

Adsorption, permeation, and diffusion of gases in microporous membranes. I. Adsorption of gases on microporous glass membranes
M. Bhandarkar, A.B. Shelekhin, A.G. Dixon and Y.H. Ma (Worcester, MA, USA) 221

Adsorption, permeation, and diffusion of gases in microporous membranes II. Permeation of gases in microporous glass membranes
A.B. Shelekhin, A.G. Dixon and Y.H. Ma (Worcester, MA, USA) 233

A generalized model for the transport of gases in porous, non-porous, and leaky membranes. I. Application to single gases
R. Datta, S. Dechapanichkul, J.S. Kim, L.Y. Fang and H. Uehara (Iowa City, IA, USA) 245

On the nitrate and monovalent cation selectivity of ion exchange membranes used in drinking water purification
M. Oldani, E. Killer, A. Miquel and G. Schock (Baden, Switzerland) 265

Removal of *p*-nitrophenol from aqueous solution by membrane-supported solvent extraction
C.J. Tompkins, A.S. Michaels and S.W. Peretti (Raleigh, NC, USA) 277

Rapid Communication

Effects of protonation on the transport of hydrophobic nitrogen heterocycles through perfluorosulfonate ionomer membranes
T.T.-B. To, R.D. Noble and C.A. Koval (Boulder, CO, USA) 293
